# ULTIMATE IN CRUSHING CANS

### COMPACT

Requiring just over 2 square feet of floor space.

### AUTOMATIC

Automatically turn on—crush the can(s)—turn off after the last can has left the ramp.

### VERSATILE

Crushes both standard and tall 12-ounce (354ml) (16-ounce model available) aluminum beverage cans.

### QUIET OPERATION

The low operating noise level does not distract patrons.

### ATTRACTIVE

Available in a stainless steel or a rich powder coat enamel finish.

### SIMPLE TO INSTALL

Plug in and go.

### RECYCLE —IT PAYS

Used aluminum beverage cans are worth from \$.35 to \$.75 per pound.

### BUILT TO LAST

The heavy steel housing and crusher body consist of industrial grade components which provide a long service life.
